HARD CASE OF THE BLUES

Patty Tuite has followed last year's successful release, "Consider This," with a new recording called "Hard Case Of The Blues." This fabulous album features world-renowned blues musicians and show-cases Bobby Rush. The collection of original songs ranges from traditional blues to honkey-tonk to rock to New Orleans blues. By cooking up this diverse rhythmic stew, Patty created a blues gumbo that will satisfy any palette! Produced by Paul Nelson, the same Grammy-winning producer who worked on "Consider This," the album has a sophisticated polish without compromising its roots sensibilities.

Patty Tuite is a long-time guitarist, singer and songwriter who leans into blues, jazz, and rock in her clever and creative original music. She has been fronting her own blues projects around southern New England since 1999. Her songs are included on Connecticut Blues Society compilation albums, and she is a longtime local favorite on the club scene. Her last album, "Consider This," was the first with her project The Patty Tuite Band, and it made the Roots Music Top 200 for 2021. This follow-up is sure to take her to the next level!
